

# **International Fair of New Technologies in Diabetes**

ATTD 2023 is to host once again it's successful **International Fair of New Technologies in Diabetes** which is a one-of-a-kind event at ATTD that brings together the latest discoveries and technological advances in the field of diabetes. The Fair gives the spotlight to start-ups, research centers and companies with products in the pipeline to promote their advances and achievements, so they can get feedback and contacts to speed up development and improve their inventions.

## **The International Fair of New Technologies in Diabetes:**

- Gathers researchers from the academic world, key opinion leaders and fellow inventors who are keen to learn about new research and development findings
- Provides a unique platform enabling a rare exchange of views and ideas on emerging technologies
- Links new inventions to potential industrial companies and investors in the field interested in funding further development or commercialization of inventions or products
- Draws the attention of entrepreneurs, venture capital companies and puts inventions, designs and products in the limelight
- Creates opportunities for building networks between international inventors and scientists worldwide
- Maximizes exposure of the innovative products and technologies by way of a global audience

**Join us in person at the ATTD 2023 Tech Fair in Berlin and take your technology to the next level!**

Meet top experts from all over the world who share your interests

- Discuss your perspectives on emerging technologies
- Find potential investors and collaborators
- Networks with international scientists and inventors
- Introduce your innovative technology to a worldwide audience

*Please note that only entities which do not have a product on the market are eligible to participate in the Tech Fair.* [TECH FAIR](#)

## Start-up Grants

**Application is closed for 2023 grants. We look forward to receiving your application next year. If you are interested to be present at the Tech Fair at ATTD 2023, please contact our Industry Liaison to book exhibition space. Judit Gondor**

**Industry Liaison & Sales Manager**

**[jgondor@kenes.com](mailto:jgondor@kenes.com) ATTD is delighted to offer Start-up Grants to outstanding start-up companies presenting an innovative product in the pipeline. Grant winners receive**

€2,500 grant and further benefits to participate at the prestigious International Fair of New Technologies during ATTD 2023.

The start-up companies that are awarded a grant will receive a small booth in our exhibition and will give a short presentation and introduction of their company.

\* Those who have received this grant in the past are not eligible to apply again. Whilst we prepare for ATTD 2023 , check out the companies which presented at the ATTD 2022 Tech Fair. [Tech Fair at ATTD 2022](#)
